

# CMiC FIELD: EMPOWER THE FIELD WITH TOTAL VISIBILITY

CMiC Field enables you to complete complex projects with tightly managed costs and timeframes. As a component of CMiC Enterprise, CMiC Field can be deployed as a **standalone** solution to manage all aspects of your firm's **project delivery operations**.

Specifically, it allows your company to seamlessly collaborate with all project stakeholders, control change management, manage the supply chain of subcontractors and material suppliers, simplify the bid process, and manage documents — **all in real time**.

CMiC Field optimizes forecasting and resource planning with its financial underpinnings, **providing verified costs for every transaction source**. CMiC software can be deployed as an on-premise platform, as a platform as a service (PaaS), or in a SaaS deployed Cloud environment.

## A SINGLE SOURCE OF TRUTH

*It is essential for construction firms to unify functional silos and manage their total business, from accounting and budgeting to project delivery and resource management.*

A truly strategic field solution won't just enable your employees to work efficiently in the field. It will also **set the stage for future growth and expansion**—at little to no added overhead cost—by sharing the same platform with your company's resource planning and financial systems.

The benefits of an enterprise-level, **single database platform** extend beyond data conflicts. A system that captures and organizes data from every department in the same way allows your leadership team to draw richer insights from all data—in real time.

When your team can successfully complete critical business functions as the number of projects expands, your organization can **grow without the traditional burdens of scale**. Having more data doesn't slow down your ability to analyze it; it only makes your data more robust and your analyses more insightful.

**Ask an expert and determine your solution today!**

CMiC delivers the most comprehensive and advanced enterprise and field operations solutions for construction and capital projects companies. CMiC's powerful software transforms how firms optimize productivity, minimize risk and drive growth by planning and managing all financials, projects, resources, and content assets—all from a single database platform.
